

# “Last Year Over 350,000 People Died From the Same Cause” Yet nobody built them a monument...

Dear Friend,

It's hard to believe, I know, but it's true. Last year, more Americans were killed by prescription drugs than by guns, AIDS, suicides and terrorists combined... But we'll get to that in a minute.

Let me start by explaining, the photo in this letter. You know, when I meet people in town they usually say, “Oh yeah, I know you, you're Dr. Lark You're the chiropractor who's been at the professional building at Barstow near Blackstone for years”. Well that's me. I'm also the woman in the center of this picture.

Over thirty years ago something happened to me that changed my life forever.

When I was 9, a week after my family was in a car accident, while on summer vacation, I woke up one day with a stiff neck. As the day went on it got so bad I couldn't move my neck at all and the pain was unbearable to the point that all I could do was cry! My mom even had to feed me lying down as it hurt too much to sit up.

It scared my parents really badly! Then my mom remembered that at our church there was a Chiropractor. So they rushed me to his office. My dad had to carry me in from the car, I couldn't even walk or sit up in a chair and I was still in my pajamas! I'll never forget Dr. Antonson. He did an exam, took some films, and then “adjusted” my spine. The adjustment didn't hurt, it actually felt good. I got relief, and I could move my neck and sit up right in a chair again. My parents were no longer scared, and I stopped crying right after the adjustment. This experience had made such a difference in my life that I went to chiropractic school myself.

Now, as for my children, Zachary and Zoe were adjusted within the first 15 minutes after birth. They obviously didn't complain about neck pain or back pain. I adjust them to keep them healthy... as with all the hundreds of children I care for in my office. You see, it's not normal for kids to get ear infections, asthma, allergies or a number of other illnesses we see clear up in my office everyday. When the nervous system is working correctly, your internal resistance and healing powers are enhanced.

A healthy family does NOT rely on medication to make them well. My family does not take medication to seek health and we don't have a “medicine chest” in our home. Due to years of advertising saturation from the pharmaceutical companies, most Americans

seek health from outside-in and most families have a “medicine chest” filled with an average of 16 different medications. In an average year the World Health Organization (WHO) reports over 1.5 million hospitalizations due to medication. Last year, the WHO reported 350,000 deaths due to medication people took... and 160,000 were when the drugs were prescribed correctly. More people died last year from medication than at Pearl Harbor and Vietnam. Amazing, huh?

If drugs make people well, then those who take the most should be the healthiest, but this simply isn't the case.

Many people are beginning to understand that health comes from within. This is why chiropractic helps so many people. You see, God created a body that can heal itself. Your body doesn't need any help: it just can't have any interference. With chiropractic, we don't add anything to the body, or take anything from it. We find interference in the nervous system and remove it, thus enhancing the healing capabilities of the body. We get tremendous results... it really is as simple as that.

Here's what some of my patients have to say:

*I have suffered from asthma and recurring pneumonias for 11 years. To be in the hospital 12 times a year was the norm for me. I eventually was taking 12-16 different medicines for my asthma*

*and asthma related illnesses. I was on oxygen. I was feeling hopeless. A respiratory therapist recommended I try light weight training to strengthen my lungs. I injured my neck and back trying. My brother-in-law recommended I see Dr. Lark. I figured she would help my neck and back. I*

*never dreamed she would help my asthma. Under Dr. Sharon and Dr. Steven Lark's care I not only became pain free, but I have dramatically helped my asthma. I have been out of the hospital since the day I stepped into their office over a year ago. I got off all but 4 of my medicines and will soon be off of them too. I have the energy I used to have. I can run and play with my children. I thank God every day that I was sent to Doctors Lark.*

*They worked miracles for me. They can help you, too. (Anne Arnold)*

Being a chiropractor can be tough because there's a host of so-called experts out there. They tell people a lot of things that are just plain ridiculous about my profession... usually it's “My neighbor's sister's friend said...” Let me ask you, do you make your healthcare decisions based on honest facts or biased opinions? Interesting question, isn't it?

NOW... Find out for yourself and benefit from our AMAZING OFFER- Look it shouldn't cost you an arm and a leg to correct your health. You are going to write a check to someone for your health care expenses, you might as well write one for a lesser amount for chiropractic. An entire week of care in my office may cost what you pay for one visit elsewhere. When you mention this article within 2 weeks of receiving this offer you will receive my entire new patient exam for \$57. That's

our full exam, with x-rays... the whole ball of wax. This exam could cost you \$239 any other time. Further care is very affordable and, you'll be happy to know, that I have affordable family plans. You see I'm not trying to seduce you to come and see me with the low startup fee, only to make it up with high fees after that. Further care is very important to consider when making your choice of doctor. High costs can add up very quickly.

**Great care at a great fee,** Please, I hope that there's no misunderstanding about the quality of care just because I am offering a lower exam fee. You'll get great care at a great fee. I utilize several different adjusting techniques in my office to better serve you. If you prefer manual techniques or Activator, it makes no difference to me. I'm here to serve you and to make a difference in your life. I've been entrusted to take care of tiny babies to 98 year olds for over seventeen years now. I'm just offering this low fee to help more people.

My assistant is Maria. She is great and absolutely full of love. Our office is both friendly and warm and we try our best to make you feel at home.

**“If you don't feel that coming to us exceeded your expectations, then your first visit is no charge.”**

We have a wonderful service, offered at an exceptional fee. Our office is called **Lark Family Chiropractic Center** and is located between Blackstone Ave. and the 41 Fwy. on Barstow Ave. We are open five days each week. Our phone number is 221-6234. Call Maria today for an appointment. We can help you. Thank you

Dr. Sharon Lark  
Chiropractor for Children & Adults

P.S. When accompanied by the first, I am offering the second family member this same examination for only \$17

We Listen...

We Care...

We get results...
